ALBERT WITT. Very clear yellow, vigorous growing habit, tubular, medium height. Matures October 10th.

BESS WITT. Apricot bronze and salmon pink, quilled petals extending outward instead of drooping. Medium height. Matures October 10th.

BUNBU. Large tubular orchid-lavender petals with hooked tip. Good cut flower variety having nice stems and dark green foliage. Medium height, maturing about November 1st.

BUTTERFLY. Bright yellow, medium sized quilled petals. Medium height. Matures November 5th.

HATSU. Orchid-lavender with spoon shaped flowers. Matures November 5th.

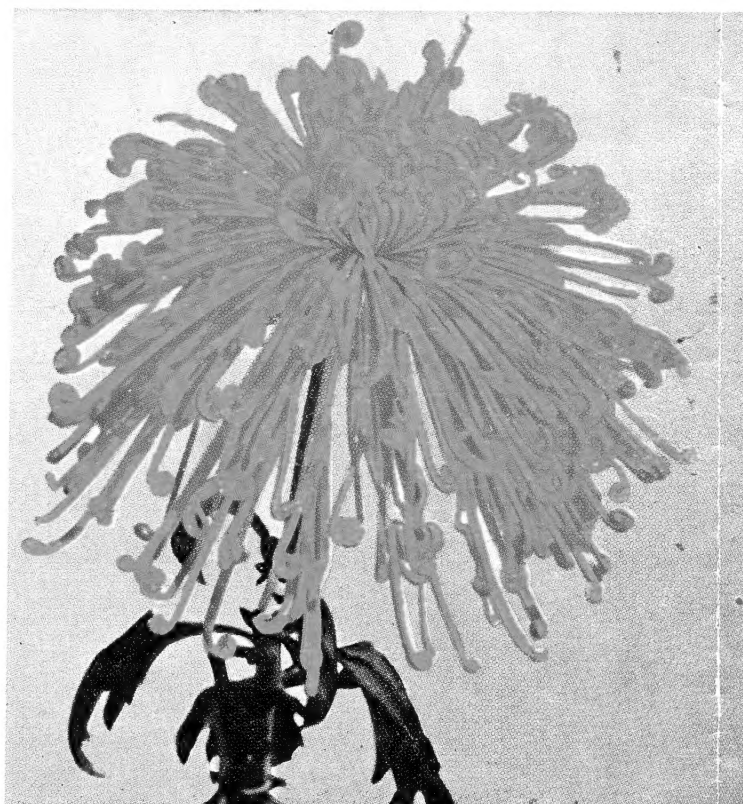

ITO PINK. Clear medium orchid-pink throughout but lighter along the edge. Full centered flower with long quilled petals of good substance. Good cut flower variety. Matures October 30th.

MAMORU. Dark orange shading into bronze toward center. Excellent cut flower for it is of good keeping quality gifted with strong stems and abundant foliage. Medium height. Matures October 30th.

MISS GENA HARWOOD. The quilled petals of this beautiful flower are rosy buff-bronze. Height tall. Matures October 15th.

MORGAN'S WHITE. A pure white quilled type flower. The flower is of solid substance and lasts exceptionally well both on the plant and after cutting. Matures October 15th.

MRS. R. A. WALKER. Lilac lavender, pendant shape flowers. Matures November 10th.

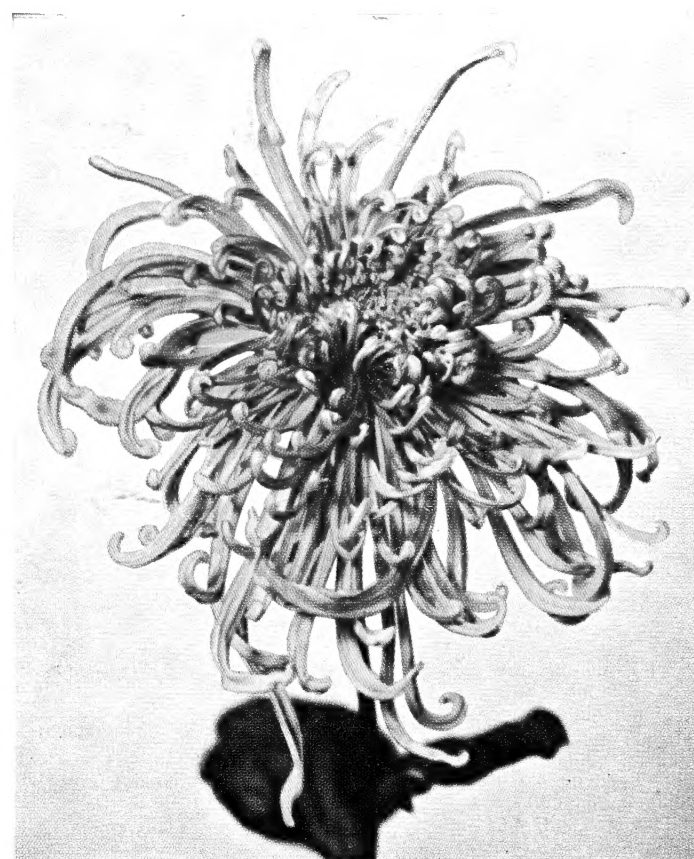

LORRAINE

LORRAINE. Lemon yellow, extra large, quilled petals open at tips into spoon shape curving inward. Very stiff stems. Matures November 1st.

NIGHTINGALE. A rare novelty in Spidery type Chrysanthemum whose color is Chartreuse green. This flower must be protected from strong sunshine as soon as the bud begins to show color. For this reason, it is not recommended for out-of-door culture in warm Southern States unless thus protected. But it will do wonderfully well in cooler regions of the country. Height, medium. Matures around October 25th.

PEGGY ANN HOOVER. The straight quilled petals of this flower with spoon tips are lovely light pink. Matures October 20th.

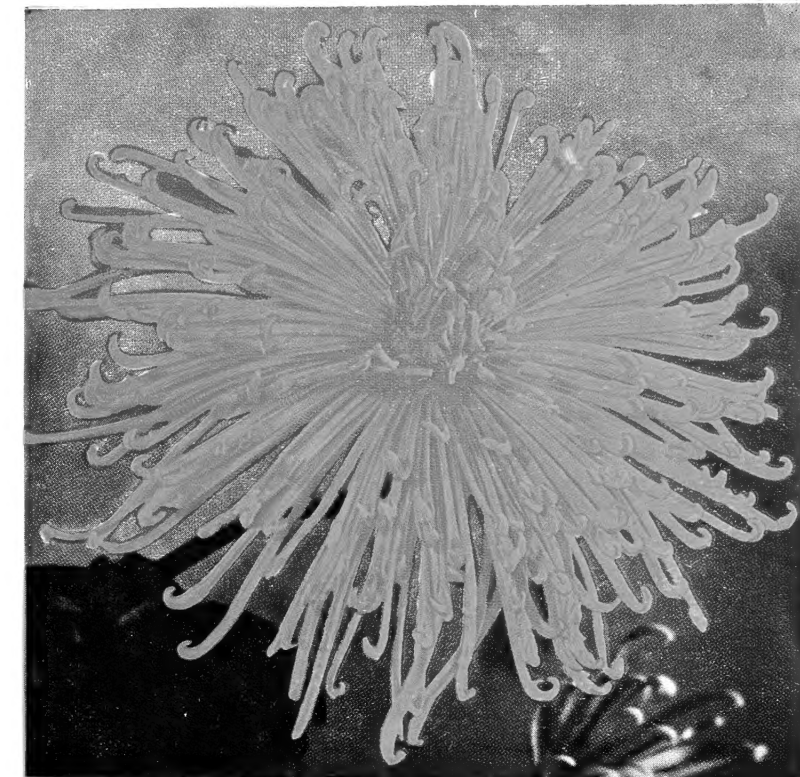

BUNBU

PINK MAMORU. A sport of the excellent cut flower variety, Mamoru (see illustration), except that the color is pink. Matures November 5th.

PINK RAYONANTE. Lovely light rose, long cord-like quilled petals, tall grower. Matures November 1st.

PURPLE SPIDER. Purple tubular flower maturing November 25th.

MAMORU

SARAH MORASCH. Beautiful shade of rose pink, changing into a most fascinating pink as it matures fully. Slender tubular petals. Strong stems. Matures November 25th.

SILVER LACE. Pure white, lacy and long petals, very large supported on a sturdy stem. Matures October 25th.

SOUVENIR. Light salmon pink, large quilled flower, tall grower. Matures November 5th.

SUE SALLY JONES. Bright yellow full centered flower. Quilled petals stretch out horizontally. Medium height. Matures November 15th.

UNIQUE. Rich wine red, small quilled petals stand stiff out from center of the bloom. Unique is the word for it. Very tall. Matures November 10th.

UTAH. A very large clear white spider. Has medium tubes with hooked tips. Stiff stems and attractive foliage. Matures November 1st.

WAIKIKI. A very tall full-centered large Spidery variety in bronze color. The tips of rich golden yellow curl inward instead of cascading like conventional spidery types. Has strong stems and good foliage. A tall grower. Matures around November 1st.

WHITE RAYONANTE. A pure white sport of Rayonante. Long cord-like quilled petals, tall grower. Matures November 1st.

NIGHTINGALE

KRAMER BROS. NURSERIES Ontario, California
